

Cherie Chan Bio

Over the course of her career, Cherie Chan has worked at PG&E, competed against one at utility.com - an energy service provider, and implemented and marketed utility software for ABB, eMeter, and Oracle. Cherie testified in the areas of Rate Design, AMI IT, and Avoided Cost Issues for the California Division of Ratepayer Advocates from 2005—2007 during the original AMI applications, and returned to that role in 2009. A native Californian, Cherie holds degrees in Social Welfare, Demography, and Business Administration from the University of California at Berkeley.
