

Mayson Smith is a Director at Five Point Partners with business development and delivery responsibilities in the company's Transmission & Distribution Practice. He has spent over 15 years in business consulting with a focus on distribution utility system selections and implementations, as well as process improvement / reengineering solutions. He has worked extensively with clients in the distribution utility industry.

Prior to joining Five Point, Mayson was a Vice President with BE Consulting where he had responsibility for their work and asset management practice area. Prior to BE Consulting, Mayson worked for Vertex Business Services (formerly Alliance Data's Utility Division) as an Associate Director responsible for their Field Services Practice. Prior to that, he worked for Arthur Andersen as a manager in their Utility Consulting Practice. Prior to entering the consulting field, he acquired over 8 years of industry operations and marketing experience working for Atlanta Gas Light Company.

Mayson received his Master of Business Administration in Finance from Georgia State University and his Bachelor of Industrial Engineering from Georgia Tech.

Mayson currently lives in Atlanta with his wife and their two children. In his free time, he enjoys golfing, fishing, coaching his children's sports teams and hiking with his family in the North Georgia Mountains.

Brent Dreher is a Senior Vice President with Five Point Partners focusing primarily on Client-Side Delivery Support services (CSDS) and Five Point's Smart Grid offerings.

A former partner with Capstone Consulting, Brent has more than 24 years of consulting and entrepreneurial experience, including over 11 years with Accenture. Brent has worked with large regulated utilities, electric cooperatives and municipal utilities in areas such as strategic technology planning, CIS software selection and implementation, ERP software selection and implementation, organizational transformation, T&D work/asset management, GIS planning and integration, and SCADA software selection/integration. Brent has also overseen projects focusing on integration of outage management and mobile work force management applications with CIS, work management and financial systems.

Prior to joining Five Point Partners, Brent was a founder and president of BE Consulting. While at BE, Brent led the formation of BE's utility industry practice, including the establishment of a Smart Grid strategy/business case offering. In his role as SVP of Outsourcing and Consulting Services at Alliance Data, Brent's team was responsible for providing business process outsourcing and consulting services to over 50 utility clients, with annual revenues of over \$140 million. In his 11 year tenure with Andersen Consulting (now Accenture), Brent led projects at clients such as Progress Energy and Duke Energy in a variety of engineering and operations areas in Generation, Transmission and Distribution.

Brent has a Bachelor of Science in Mathematics from Lambuth University and an MBA from the Owen Graduate School of Management at Vanderbilt University.

Brent lives in Franklin TN, a suburb of Nashville, with his wife and three sons. In his free time, Brent enjoys playing basketball, golf and reading. He also enjoys coaching his sons in basketball.

Kurt Zuch is the CEO and founder of Five Point Partners. He brings nearly 20 years of utility industry and entrepreneurial experience to Five Point Partners.

Kurt began his career with Andersen Consulting's (now Accenture) information systems consulting practice in Washington, DC. Identifying a market opportunity for utility consulting services, he founded Pathways Consulting in late 1994. He sold Pathways in 1996 to Computer Management Sciences (CMSI), then a publicly traded consulting firm on the NASQ:CMSX.

In late 1999, Kurt joined Excelergy Corporation, a start-up software provider of utility centric solutions, in Boston, MA to become the Vice President of Professional Services and manage the Atlanta office. He joined Novient, Inc. in late 2000 to become Vice President of Professional Services. He was promoted to Senior Vice President of Operations in 2001, responsible for managing and coordinating all operational activities, including Software Development, Professional Services, IT, and Product Support.

During the sale of Novient, Kurt retrenched in the consulting business as the Founder and Managing Partner of Capstone Consulting Partners, Inc. Capstone commenced business operations in 2002 to provide strategy, solution delivery and application management consulting services to companies within the energy industry. In November 2004, Capstone was sold to a publicly traded company out of Dallas, TX, Alliance Data (NYSE: ADS). Kurt assumed the position of Senior Vice President at Alliance Data responsible for Strategy and Mergers & Acquisitions for the Utility Services Division.

Kurt has a Bachelor of Science in Management Information Systems from Virginia Tech.

Kurt is married with four children. He and his family are active members of their church and enjoy actively supporting specific community charities via their Foundation. In his spare time, he enjoys outdoor activities, sports, reading and investing.
